<b>Project Cost</b>	£250,000.00	<b>Total requested</b>	£5,000.00

Funding Recommendation		
Fund Name	Recommended	Panel Date
Holehird Trust Fund	£2,000.00	20/09/2022
Johnson Fund	£2,000.00	20/09/2022
Roselands Trust Fund	£1,000.00	20/09/2022
<b>Total amount recommended</b>	<b>£5,000.00</b>	

Expenditure	
<p><b>Volunteer costs:</b> £0.00 Parish Councillors are unpaid volunteers.</p> <p><b>Operational costs:</b> £0.00 Maintenances of the toilets will cost approximately £10,000 pa funded in part by a small charge on entry and the balance from the PC.</p>	<p><b>Capital costs:</b> £5,000.00 There is a considerable Capital Cost for the Changing Places Facility but that forms part of the tendered price. We are able to recover VAT on all elements.</p> <p><b>Publicity costs:</b> £0.00 We intend to publicise completion of the toilets' not only for the benefit of users but also to acknowledge the financial contributions towards its rebuild.</p>
<b>Quotes Received</b>	Yes

Income		
<b>Amount of funding raised so far</b>	£110,000.00	SLDC £20,00; A&CPC £15,000; Cartmel Village Society £15,000; Bradley Park Restoration £15,000 and the Community Lottery Fund £45,000
<b>Applying Elsewhere</b>	Yes	Several including SLDC Shared Prosperity Fund to secure the balance needed.

Project Details	
<b>Project title</b>	<b>Rebuilding of the Riverside Public Toilets</b>
<b>What would you</b>	The grant will go towards the cost of providing a Changing Places Disability Toilet in

<b>like to do with your grant?</b>	addition to a unisex toilet within the proposed rebuilding of the dilapidated and closed village toilets for which all relevant consents have been obtained.		
<b>How do you know that the people in your community want this project/activity and what evidence have you collected to demonstrate this?</b>	When the toilets had to be closed there was consternation from those in the village who used them frequently even though they had become not fit for purpose and insanitary. The PC has and continues to be lobbied not just by residents but also visitor operators when toilets' will become available as these impacts on their potential length of stay. Visitors to our mediaeval village and 12thC Priory frequently enquire where there are toilets and when asked the best, we can offer is to direct them to one of the businesses or the racecourse where there are privately operated toilets accessed through their 'pay on entry' car park.		
<b>Explain how the people or community accessing your services are disadvantaged and tell us about the issues they face</b>	Everyone is disadvantaged if they cannot access toilets in the village centre without having to prevail on businesses when not a customer. Older residents and those with severe disabilities find it difficult to access services when there is a risk of 'being taken short'. It is also embarrassing to explain to visitors there are no toilets except those that are privately owned whilst on occasions to find some returning after a number of years away from the village, venture to the closed toilets' and despite signs to the contrary, expect to find them open.		
<b>Outline the benefits and outcomes that you expect to achieve as a result of the funding</b>	As the aged public toilets' within the village centre are closed, not being fit for purpose, providing new and up to date facilities especially for the disabled is considered a priority for the Parish Council. Readily accessible toilets are essential not just for villagers but also for the burgeoning number of year-round visitors to Cartmel. Everyone requires toilets. Whilst the village has a number of pubs and restaurants etc, toilets are only available for customers, and few have adequate disabled facilities. The project will rectify this shortcoming.		
<b>How you will collate, measure and report the benefits you describe?</b>	There has been no need to collate nor measure the benefits because everyone at some point needs toilets.		
<b>How does the project/activity progress after this funding ends, or is it one-off?</b>	The one off project will last indefinitely once built and operational.		
<b>No of beneficiaries</b>	1000	<b>No of volunteers</b>	4

<b>Assessment</b>	
<b>Organisation</b>	Parish Council who would like to not only provide a new toilet block following the closure of their previous one but would like to make them suitable as a changing spaces toilet.
<b>Finances</b>	Accounts dated 11/08/2022 show an income of £186,398 with £38,930 coming from the parish precept. Expenditure of £186,398
<b>Need &amp; Demand</b>	Despite the increasing number of Changing Places toilets, there are still not enough to meet the demand and many areas of the UK do not have one at all. Without them, people with a disability have to stay at home or their family carers have to resort to changing them on dirty toilet floors. Changing Places toilets will help many of these people to take part in the day-to-day activities most of us take for granted.
<b>Project</b>	A new building project to provide a full changing places facility that meets the requirements needed.

<b>Budget / Value for Money</b>	This is a costly project due to all the restrictions and items required for a changing palaces facility.
<b>Future Sustainability</b>	This is a one-off project.
<b>Impact</b>	Changing Places are fully accessible toilets and designed so that they are completely accessible and provide sufficient space and equipment for people who are not able to use the toilet independently. They must be an extra facility, in addition to the accessible toilets for independent use. Changing Places toilets are larger accessible toilets for severely disabled people, with equipment such as hoists, privacy screens, adult-sized changing benches, peninsula toilets and space for carers.
<b>Safeguarding</b>	Draft safeguarding policy provided but it does not have a named safeguarding officer or their contact details.
<b>Any other comments &amp; recommendation</b>	Changing places toilets tend to be in large buildings such as hospitals, service stations, or leisure centres. They are very sparse in Cumbria.
<b>Conditions</b>	Conditional on them raising most of the project costs and the project can go ahead and a finalised safeguarding policy.
