The risk is that agreeing to any remedy to remove the discrimination to affected members ahead of legislation may have unintended consequences and significant financial impact including tax liabilities.</p> <p>The risk is compounded by insufficient budget to fund the required remedy and any associated project work costs. There is a risk of legal breaches reportable to the Pensions Regulator; incorrect pension entitlements being calculated for pensioners; and loss of credibility with scheme members and employer.</p> <p>There is also a risk of the FBU issuing legal proceedings against the FRA if we do not process ID cases.</p>	DOT 		<p>2022 providing information on the remedy and immediate detriment cases and the recommendation not to process ID cases at this time, with a further review within 3 months was agreed. A follow up report was sent to the Director of Finance in July 2022. The recommendation was agreed to delay the adoption of the MOU/Framework agreement and review the position either when: the regulations are in place; further supporting documents are available; there is a significant change in position from the LGA or if the Service request that the position is reviewed.</p> <p>Officers will continue to monitor this situation, liaising with the LGA, LPPA and other FRAs to keep up to date with latest advice and guidance.</p> <p>The Scheme will be discussing this issue with LPPA through its usual monitoring meetings and will be making preparations for managing the additional workloads. This is likely to have an impact on the Pensions Administration budget however it is not expected that any material additional costs will be incurred until 2023/24.</p> <p>Officers are continuing open communication with the FBU, and other trade unions, regarding the current position and latest advice and guidance.</p>	<p>with relevant up to date information in relation to Firefighter pensions and Immediate Detriment (ID) cases affected by the Sargeant / McCloud judgement and the subsequent remedy.</p> <p>The Scheme will be working closely with LPPA to identify what additional workload is required.</p> <p>Planned improvements will be reported to the Fire Local Pension Board when there is greater clarity as to what is required from the Scheme.</p> <p>Officers are currently reviewing the quality of data held by LPPA to assist in managing the risk of incorrect pension entitlements being calculated for pensioners; and loss of credibility with scheme members.</p>

1.7	Scheme Employer & Scheme Manager	<p>O'Brien/Matthews Judgement</p> <p>This judgement relates to pre 2000 service, for part-time service. The risk is that we are unable to adequately determine employment history, pensionable service and levels of contributions required to comply with required administration processes.</p> <p>This could be caused by employer not having historic employment data for affected members; LPPA/the employer not having appropriate resource to undertake the work; the Scheme having insufficiently capacity to adequately review the results; or insufficient budget to fund the required project work.</p> <p>This could result in legal breaches reportable to the Pensions Regulator; incorrect pension</p>	<p>12 (3 x 4) DOT →</p>	<p>9 (3 x 3)</p>	<p>This is a developing risk and the Scheme will be monitoring announcements from the Fire Scheme Advisory Board as to what additional information is required from the employer and the additional workstreams for the Scheme and LPPA.</p> <p>A Memorandum of Understanding was agreed by the HO LGA, FBU & FRSA, following which the LGA provided a summary of the MoU and the second options exercise.</p> <p>The Scheme will be discussing this issue with LPPA/LGA through its usual meetings, as and when information is provided from central government. Only then can a full impact analysis be undertaken.</p>	<p>The LGA have released a summary document which provides more information about those in scope and the second options exercise.</p> <p>The relevant regulations are being drafted and will provide a further update when more information is known.</p> <p>The Scheme will be working closely with LPPA to identify what additional workload is required.</p> <p>Officers are currently reviewing the quality of the data retained by CFRS from the FPS 2006 (special members) first options exercise. Following this, steps will be taken to identify those in scope for the second options exercise. A series of data checks will be undertaken, working in partnership with stakeholders to mitigate the risk of loss of credibility with scheme members.</p> <p>Officers have recently carried out some work in line with a request from the LGA, which has allowed the identification of the potential numbers in scope.</p> <p>Officers have also arranged for the retention of historical employment data wherever possible and to retain this data during the LGR process, so that CFRS will continue to have access.</p> <p>LGA have suggested that there will be alternative option available where adequate historical service data is not available. We will provide a further update when the information is available.</p>

2.1	Scheme Manager	<p>Pensions Regulator Intervention</p> <p>There is a risk that the Scheme commits a serious regulatory breach</p> <p>This could be caused by the Scheme failing to advise the Regulator of regulatory matter (e.g. reporting a breach, submitting the Scheme Return) or failing to implement new regulations.</p> <p>This could result in a detrimental effect to the service being provided to scheme members and the employer. It could also result in serious reputational implications for the Scheme Manager and potentially a financial penalty.</p>	5 (5x1) DOT →	5 (5x1)	<p>The Scheme has good contacts with other Scheme Managers, the LGA, CIPFA and other bodies to ensure that it is aware of changing regulations and their impact to the Scheme.</p> <p>The Fire Local Pension Board is advised on new regulations and emerging issues at each meeting.</p> <p>The Pensions Regulator is maintaining a focus on all Public Sector pension schemes and is beginning to levy its first fines for failure to meet regulatory obligations. The Pensions Regulator has also noted that it will be more proactive in enforcing regulations in the future.</p>	<p>Officers will continue to “horizon scan” to understand emerging issues that may have an impact on the future of the Scheme. Where appropriate, the Fire Local Pension Board will continue to be appraised of any emerging issues.</p> <p>The Scheme undertakes an annual assessment of training needs of each Member. The results of this assessment inform the Training Plan for the Scheme.</p> <p>Officers will arrange for high quality training to be available to all members Fire Local Pension Board throughout the year to ensure that Members have the appropriate skills and knowledge to take informed decisions at each meeting.</p>

2.3	Scheme Manager	<p>Financial Irregularity</p> <p>There is a risk of fraud, fraudulent behaviour, or unintentional overpayments. This may be caused by fraudulent activity or misunderstanding.</p> <p>Failure to address financial irregularity may result in a financial loss to the Scheme Manager or employer, as well as reputational damage to the Council.</p>	<p>6</p> <p>(2 x 3)</p> <p>DOT</p> <p>➔</p>	<p>6</p> <p>(2 x 3)</p>	<p>Fraudulent Activity – Active participation in the National Fraud Initiative reduces likelihood of unidentified deaths and fraudulent pension claims.</p> <p>Segregation of duties and a delegated scheme of authority minimises the risk of fraud within the Scheme.</p> <p>Unintentional overpayments – The NFI activity may identify overpayments where no fraudulent activity has arisen, but a benefactor has unintentionally benefited from the Scheme, e.g. payments continuing to be made to a widow(er) following the death of their partner. In such instance's officers act compassionately.</p>	<p>Officers conducted a review of data from the National Fraud Initiative in 2021 and are addressing one outstanding case. The next set of results from this biennial exercise are expected in early 2023.</p> <p>To help mitigate this risk discussion have been held with LPPA to introduce regular contact with those in receipt of injury allowances to remind them to declare DWP benefits. 2.4	Scheme Manager	<p>Loss of key personnel</p> <p>There is a high risk that the scheme manager may lose key personnel.</p> <p>This risk has been significantly compounded recently with the Fire Service Transition / LGR (see risk ref 2.7 below)</p> <p>The staff allocation process is nearly completed and that the majority of staff who support fire pensions have been provisionally allocated to Westmorland & Furness or Cumberland Unitary Authority. This will result in loss of specialised skills, knowledge and experience.</p> <p>This is likely to have a significant impact at this time particularly due to the large and complex projects relating to Sargeant and Matthews.</p>	<p>20</p> <p>(4 x 5)</p> <p>DOT</p> <p>↑</p>	<p>16</p> <p>(4 x 4)</p>	<p>There are currently conversations ongoing to agree how services will be delivered for Cumbria Fire and Rescue Services in the short, medium and long term.</p> <p>A number of services currently support Fire Pensions:</p> <ul style="list-style-type: none"> • People Management • Legal • Payroll • Systems • Democratic Services • Finance <p>Some services will be hosted short term by one of the unitary authorities and some will disaggregate to be part of CFRS.</p> <p>Officers are working with legal and senior colleagues in CCC to draft and agree Service Level Agreements with all hosted services to ensure continuity of service. There is a plan in place for this recruitment process.</p> <p>There will be some turnover in the Board membership on vesting day. It is possible that the new membership will have limited knowledge of the Fire Pensions or wider pensions experience. The increase in the risk score this quarter reflects this. To help mitigate this risk a training needs assessment will be undertaken and a training plan developed.</p>
